## **Leeds City Councillors 1980-2023** **Ward by Ward** **with an alphabetical index of names**

This document lists for each Ward its Councillors from 1980 onwards.

The lists of Councillors are ordered first by the date of their first election, then by their length of service, and then alphabetically.

There are Leeds City Council elections in three years out of four, with no elections in 1981, 1985, 1989 and so on, except that because of the Covid pandemic, there were no elections in 2020, but elections in 2021.

The elections in 1980, 2004 and 2018 were contested on new ward boundaries, with three seats up for election in each ward. In other years only one seat was up for election in each ward, except in a few cases when there was also a casual vacancy to be filled.

Sometimes when the boundaries of a ward were changed, its name also changed. The years from 1980 in which a ward of a given name existed are given after the name. Current wards are listed first, followed by former wards.

The lists of Councillors by ward are followed by an alphabetical index of all the Councillors elected in the given period.
